

Trips around Ojcowski National Park with elements of Ecological Education

Ecological classes in the Ojcowski National Park are a great complement to classes conducted in schools.

School Discovery Expedition

It is a journey along the most beautiful hiking trail of the Ojcowski National Park - the cognitive path "Dark Cave - Mount Trenches".

Course participants can, among other things, see:

- Jaskinia Ciemna, one of the most extensive caves in the Krakow-Częstochowa Upland;
- One of the oldest archaeological sites in Poland!
- Mysterious remains of an early medieval settlement;
- Unique turf and rock thickets with numerous Mediterranean and steppe species;
- The most beautiful panoramas of the Prądnik Valley and the vicinity of Kraków;

Classes are an opportunity to supplement knowledge about natural and historical issues with student's personal experiences. The stimulation of his sensual and emotional experiences is essential for a better understanding of the material presented during school classes, making it abstract and giving meaning to particular phenomena.

Course subject:

Geography: Landscape of calcareous highlands around Ojców; karst phenomena (caves, rocks, wywierzyska); distinction of basic forms of natural landscape and transformed by man.

Biology: Structure and functioning of the ecosystem; forest layers; diversification of vegetation and fauna; variability of habitat conditions; life of plants in extreme conditions; the impact of civilization on nature; dependence of man on the natural environment.

History: Discoveries in a cave; living conditions of people from the period of the older Stone Age; the oldest apartments; getting food, clothing and tools; defensive strongholds; archeology as a method of learning about the earliest periods of history.
