

Trips around Ojcowski National Park with elements of Ecological Education

Ecological classes in the Ojcowski National Park are a great complement to classes conducted in schools.

Landscape assessment

The aim of this lesson is to introduce participants to the complexity of the phenomenon of human management in the landscape.

Setting the task - choosing the location and form of the house - gives the possibility of various field exercises, eg reading the map, preparing a site plan, analyzing land use and its impact on the natural environment, analysis of architectural form and location of existing buildings, environmental interviews.

The complexity of the problem causes that these classes are also an excellent school for group work and team-solving problems.

Price: PLN 48 / person

Price list for 2023

a minimum of 20 people in a group

60 PLN
