

Trips around Ojcowski National Park with elements of Ecological Education

Ecological classes in the Ojcowski National Park are a great complement to classes conducted in schools.

Walk with a compass in your hand

This is a topic intended for both children and adolescents.

These classes combine the content of all the above-mentioned programs, in particular the classes "Landscape" and "We recognize the Trees".

The main attraction of the lesson is conducting classes in the form of a patrolling run. It teaches the basics of orientation in the field, using a compass and determining the azimuth, and introduces a favorite element of sports competition.
